WORLD CHOCOLATE DAY

I People all over the world celebrate World Chocolate Day every year on July 7. This is a day to enjoy everybody's favorite chocolate treat. It can be hot chocolate, a chocolate bar, chocolate ice cream, chocolate cake or chocolate cookies. The most popular gift on World Chocolate Day is a box of different kinds of chocolates. Also, on this day a lot of restaurants serve special dishes made only of chocolate.

II People say that chocolate first appeared in Europe on July 7, 1550. That is why we celebrate World Chocolate Day on this day. Until then, only people in Mexico and parts of Central and South America knew about chocolate. Europeans first tasted chocolate there and brought it home to Europe. It quickly became popular in Europe, too. Today, most countries make chocolate but the most famous chocolate comes from Switzerland.

III People all over the world love chocolate. Companies make different kinds of chocolate including milk, white and dark chocolate. Chocolate can also come in other colors, even pink. Some chocolates have fruit and nuts inside.

IV Chocolate can not only improve our mood, but it can also be good for our health. Some scientists now say that eating two small pieces of dark chocolate every day is as good for us as eating vegetables. But scientists also warn us that eating too much chocolate is not healthy because it's high in calories. So, enjoy eating your favorite chocolate but don't eat too much!
